

## Safe Hair and Body Products

**\*\*Please note that this list is given as a courtesy, and though we have thoroughly checked the ingredients in all of these products, formulations frequently change. It is in your best interest to double-check the ingredients of any product you are intending on using to verify that the ingredients are still currently non-comedogenic. In addition, if a product does not have any visible comedogenic ingredients, but it is evident breakouts are occurring from it, discontinue use.**
